To **USPTO**
Att. Mr/Mrs **Johnson, Vicky A, primary examiner**
Art unit **3656**

Application No 10/577,165 (filing date 04/26/2006)

Titled: **Cam drive mechanism**
Inventor: **John Pattakos et al.**

Dear Madam/Sir,

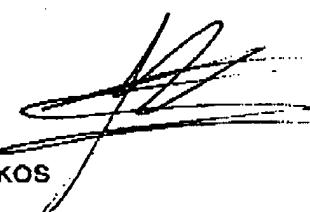

This is the reply to your letter of December 08, 2009 (delivered to me, by the post office, yesterday 04 of January 2010).

According your instructions, here is the complete listing of all of the claims.

The drawings remain the original ones.

Regarding the drawings, please note that in my last letter the original Fig 8 (as published by WIPO) was used just to show an embodiment wherein: "the reciprocating member comprises at least one roller (4) riding on a rotating cooperating cam (11) and bearing thrust loads at low friction to improve mechanical efficiency and reliability".

Thank you
Manousos Pattakos
